CNUT is one of the leading higher educational establishments in the north of Ukraine. It is famous for its academic excellence and leading innovative Computer Science researches.

2000 - 2012   **MATRICULATION SCHOOL CERTIFICATE**
SECONDARY SCHOOL #1
Secondary school #1 with the extensive learning of foreign languages, Chernihiv, Ukraine.

PROFESSIONAL SKILLS

Software Architecture

Cloud & DevOps

Web Development

Mobile Development

Constructor called
on : 13.04.1994 in: Ukraine, Chernihiv

ABOUT ME

I am a curious software engineer based in Ukraine. My work is my passion. I am always interested in learning something new or improving my existing skills. Nowadays, technologies are constantly changing and evolving, so I try to keep pace with the times. I always try to design an application architecture in the first place. I enjoy discussing different architectural approaches, finding alternatives and adapting an architecture for specific requirements. I am not trying to maximize the number of projects done, but the **number of well-done projects instead. To get** more details about me please visit my website.

I SPEAK

• **ENGLISH** (Upper Intermediate)
• **GERMAN** (Lower Intermediate)
• **UKRAINIAN/RUSSIAN** (Native)

I CODE

• Java	• Javascript	• GoLang
• Kotlin	• TypeScript	• Dart
• Swift	• Ruby	• Perl
• C#	• Objective C	• Python
• PHP	• C/C++	• HTML - joking :)
